### To Spend Wisely.

The chief work for the irrigation congress as pointed out by Mayor Glassman of Ogden, yesterday is to exercise good sense and fairness in seeing that the money appropriated by the government for redeeming arid lands is well spent.

Irrigation is certainly one of the greatest of American projects to-day. Everyone in the west is familiar with it. It has been sought for years.

Now the problem is to wisely utilize the funds obtained and to carefully and fairly carry on the movement until great results are obtained.

It is a matter which every citizen should take an interest. All sections should be considered as circumstances will permit and favoritism should be shunned for therein would lie a cause for wide dissatisfaction.—Wichita Beacon.

Mr. Tigner is a thorough druggist and understands his business, which is very important, as there are lives at stake in filling prescriptions.

### MORRISON BROS. OPENING.

Mrs. J. P. Church furnished Beautiful and Costly Flowers for Souvenirs.

The Fall Millinery opening last night at Morrison Bros. store was strictly swell. The doors were closed and there were signs saying the doors would be opened at 7 o'clock. There was a very large crowd on the street long before the time for the doors to be thrown open. At the same time and the eager crowd surged in. Over three hundred beautiful roses and numerous other flowers were presented to the ladies and they were heartily appreciated, and were indeed a fitting souvenir of the evening.

The store was decorated in grand style and a stringed orchestra hidden behind screens furnished music and dancing was indulged in in the rear of the store. However, this was not on the program. There was a lack of business formality, and Charles Leo, Joseph and Arnold Morrison, Mr. Beyatt, the window trimmer and "ad" man and Miss Daisy, Brigrance, milliner, had a pleasant greeting for all.

The ladies went into ecstasies over the beautiful hats, the highest priced hat being trimmed by Miss Brigrance and valued at \$40 and the Paris productions are only \$25. The ready made wearing apparel was nicely displayed and was admired by hundreds of ladies. Miss Brigrance, the milliner was attired in a beautiful blue silk dress and looked very charming. She endeared herself to many of the ladies by her sweet manner. The opening was a success in every way. The hats were beautiful, and the store is strictly up-to-date.

### The Lines in One's Palm.

Square or spatulated fingers in the science of palmistry denote the philosophical and practical temperament, taper fingers signify an artistic temperament and very pointed digits are a sure sign of the dreamy, psychical nature. Much is learned by the general quality and configuration of the lines which cross the latter. The life line running around the base of the thumb denotes long or short life, good or ill health, according as it is long or short, clear and unbroken or otherwise. The heart line, running across the palm nearest the base of the fingers, signifies the quality of the possessor's emotional nature, also the kind of love she will give and receive. This will be enduring or temporary according to whether the line be long and clear, forked or crossed and chained. Below this is the head line, which indicates the mental and moral qualities and achievements and deficiencies.

The line of fate runs perpendicularly across the middle of the palm and is a very important factor in the happiness or unhappiness of its owner. It should be clear and narrow, unchained and uncrossed by the fine wrinkles which score so many palms, and it should never come to an end on the line of the heart, since this signifies disappointment in love. A cross on the "mount of Mercury," which is just at the base of the fore or index finger, is an unfailing sign of a happy marriage.

### The First Wedding Ring.

The wedding ring, according to Henry Swinburne of the seventeenth century, was first designed by Prometheus and fashioned out of adamant and iron by Tubal Cain. He says that it was "given by Adam to his son to this end—that therewith he should espouse a wife." Men were, as all women know, deceivers ever, and some of these unscrupulous creatures were wont to wed with rings made of rushes, imagining them to be less binding than a strong and valuable ring. The bishop of Salisbury, however, stepped in and forbade this practice in 1217.

Silver was more frequently used than gold for wedding rings, and they were made in all kinds of shapes, some twisted, like two joined hands, or a pair of hearts stuck together with an arrow. Often they were adorned with precious stones and had "posies"—that is, scraps of verse—inscribed, such as: Fortune doth send you, hap it well or ill, This plain gold ring to wed you to your will.

### Little Sister's Rejoinder.

Out in the east end is a young woman whose little sister is much inclined to ask numerous questions and though she is sometimes a little slow about understanding things in general, she is as quick to see a point as most little girls of six. The other day Little Sister asked Big Sister the direction to the home of a new acquaintance. Big Sister tried her best to make the way plain to no avail, and finally becoming exasperated, exclaimed: "Oh, follow your nose, Nan, and you will finally find the place." "Well, if you ever follow your nose," came the quick retort, "you will go up, and up, and up, and be an angel by and by, which you're not now." Which reference to a nose inclined to be pugged ended the controversy.—Pittsburg Gazette.

### The First "Lady in Trade."

Perhaps the most notable instance on record of the feminine street trader is that of the "White Widow," otherwise the Duchess of Tyrconnell, the Frances Jennings of the De Grammont memoirs, who, at the time of the revolution in 1688, according to Horace Walpole, "being reduced to absolute want on her arrival in England and unable for some time to procure secret access to her family, hired one of the stalls under the Royal Exchange and maintained herself by the sale of small articles of haberdashery. She wore a white dress wrapping her whole person and a white mask, which she never removed, and excited much interest and curiosity."—London Chronicle.

### A Baker's Dozen.

The expression "baker's dozen," which is a point of fact thirteen, has a history. For a baker in the olden times to give short weight in bread exposed him to considerable penalties, and thus the custom arose of adding an extra loaf to the dozen as compensation for any possible deficiencies in the rest of the batch. The extra article was originally a safeguard to avert the chances of a heavy fine.

### The Editor's Fear.

English Magazine Editor—I am afraid—Assistant—Yes? English Magazine Editor—That we are not labeling our humorous department plainly enough. Unless we make the titles less ambiguous half our readers will not know the articles are funny.—Baltimore American.

### The Antiquities Were Out.

A traveler recently inquiring at a feudal castle in England whether he could see the antiquities of the place received the simple answer from a servant, "I am sorry, sir; my lady and her daughter have gone to town."

### Pride.

Von Porker—Aren't you satisfied with that antenuptial settlement? Lord Grafton—No, sir. I don't want to lose my self respect after marrying by having to run to your daughter for every thousand.—Life.

### Alphabetical Lovemaking.

She—Are you fond of tea? He—Yes, but I like the next letter better.—Modern Society.

Life is a calculation; the happy man is he whose calculation is correct.—Cloddy.

### Announcement of Meetings.

To the religious people of Roswell:

My gospel tent is located on 5th street and I am now in a series of gospel meetings for the church of Christ at Roswell. My object in coming to Roswell is:

First, to teach men and women how to become christians.

Second, to persuade all religious people to be governed by the bible. And it seems to me all good men and women can work and prosper this kind of a meeting.

So I kindly ask your help, prayers, attendance and co-operation in this meeting if you desire the salvation of your friends, but should you not be in sympathy with this kind of meetings I hope you will work against the same so all can tell which side you are on.

All our lessons will be diagrammed on blackboard and all bible questions answered.

Preaching each night at 7:30. If I am teaching the bible I beg all good people to come and help. If not, I ask any to come and show up my error that all may know the truth.

J. D. TANT.

Christian Evangelist of San Marcus, Tex.
